Our 20-year guide for what we do and how we do it

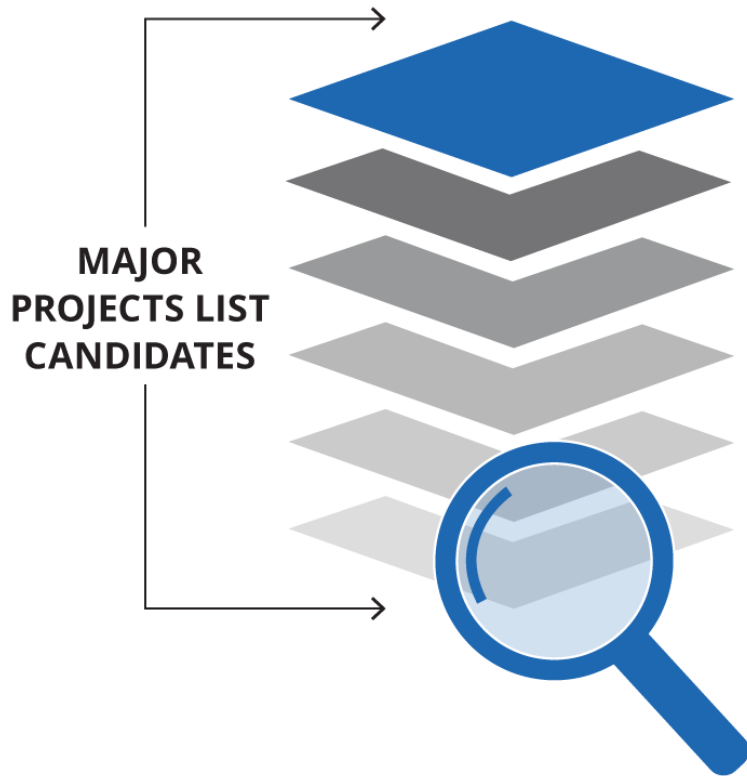

The 20-year plan to guide our:

- transportation projects
- programs
- policies
- investments

2045 Transportation System Plan scope + schedule

Developing the TSP financially constrained projects list

1

Create the list of project candidates

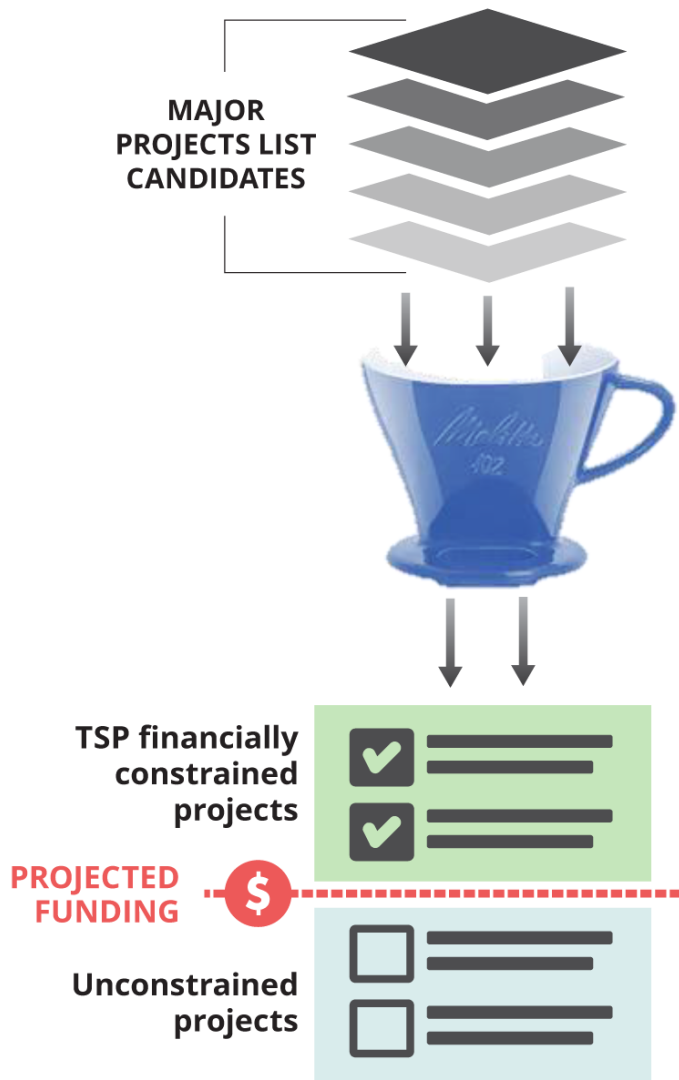

- Projects yet to be done from the 2035 TSP
- Projects from plans adopted since last TSP
- New projects that arise from the needs analysis

2

Review the list

- Consistent with Regional Transportation Plan
- Meet state-required needs analysis requirements

Developing the TSP financially constrained projects list

3

Evaluate and screen

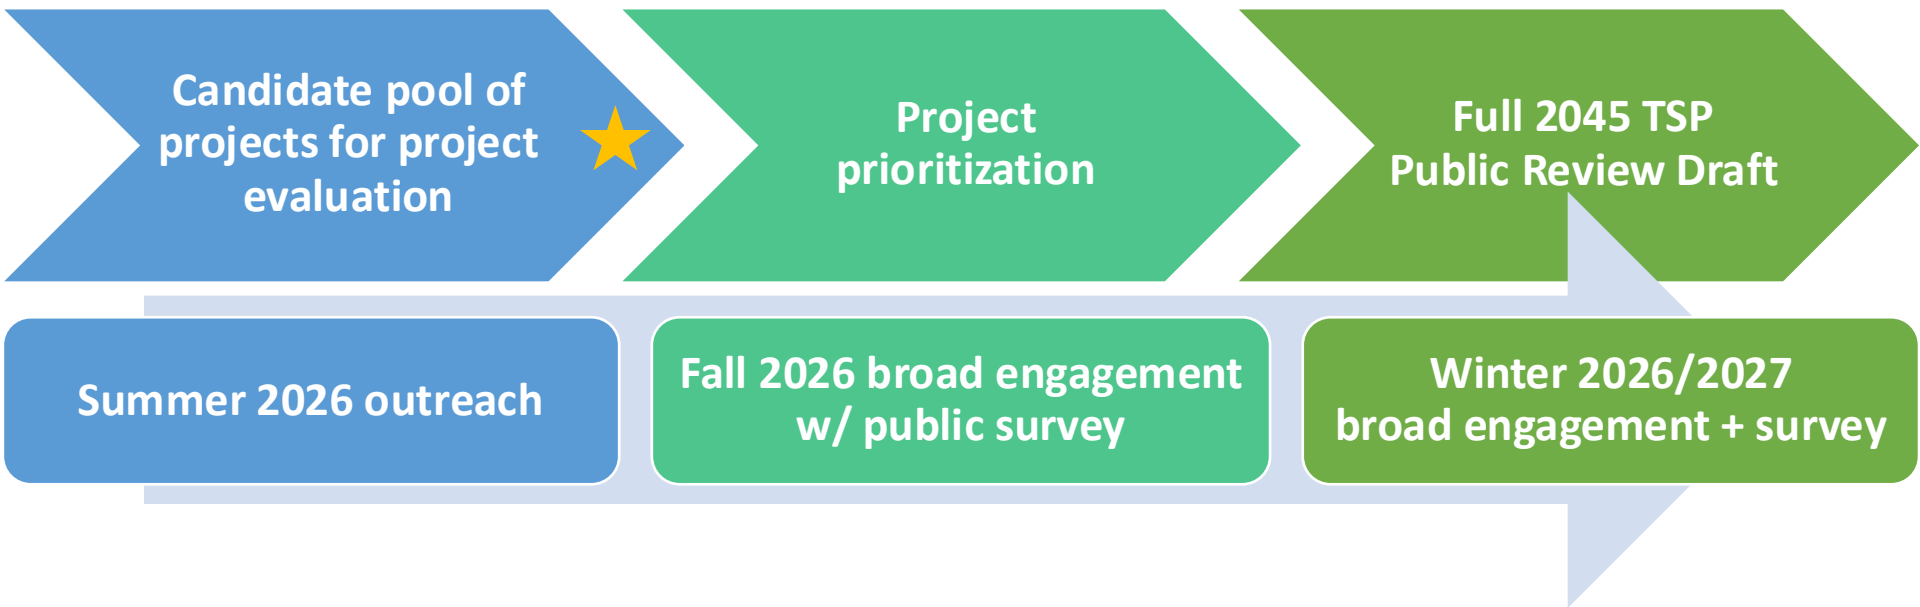

- **Evaluation:** Assessing project-level considerations
- **Balancing and packaging:** Assessing system-level considerations

4

Draft TSP Major Capital Projects list

- “Constrained” by amount of funding projected

2045 TSP key processes ahead

Refining the candidate pool of projects

Refining/ modifying projects: Would you suggest any project description refinements or modifications to meet the needs?

Adding new projects to meet the needs: Are there any key areas of unmet needs (by district) that you would recommend addressing with new projects?
